2019

We master our business!

INNOVATION
IS OUR STRENGTH

Dear customer,

Holly Creations Fishing Tackle Co. Ltd is a daughter company of Jiangsu Holly Corporation, a well-known and respected, public listed company in Jiangsu province, China.

We have been manufacturing fishing tackle since 1998. Now we are rapidly conquering the European market with a complete range of high quality carp, catfish, trout, match and sea tackle.

Holly Creations offers a comprehensive range of over 5,000 carp, catfish, trout, match and sea fishing items from its manufacturing units in Danyang, a city near Nanjing and Shanghai. Danyang is only a one-hour drive from Nanjing airport, a three-hour drive from Shanghai or just one-and-half-hour by the new high speed train from Shanghai.

The strength of Holly Creations lies in its experience with and its knowledge of the very complex and highly competitive European market. We not only understand what products are used for, but also how they are being used. That enables us to get the quality right and even make innovations. It gives us that little extra edge that makes all the difference. Innovation is our strength...

Every year we put huge investment into tooling costs and innovation budgets; this enables us to offer a wide range of items that are the result of our own innovation to our clients.

Holly Creations only accepts OEM business from wholesalers and is not aiming for orders from retailers. We ask a considerable minimum order quantity and amount to protect our wholesale clients.

Any information given to Holly Creations is treated with the highest confidentiality, and if a product is specially developed for a specific customer, it will be for that customer only.

It is fair to say that the huge success and fast growth of Holly Creations shows that we master our business. We invite you to visit our factory and/or showrooms.

Holly Creations offers a wide range of shelters and umbrellas "off the menu". Of course, with all the experience and knowledge that we gathered over the years, we can make just about any shelter or umbrella. We have all the materials, most of them in stock: quality zippers, canvas (in many colours), pegs, rings, clips, Velcro tape... you name it and we have it. We feel confident that we can meet any requirement. So, if you are thinking of developing your own, unique shelter or umbrella, we can be of service - even if it requires special aluminum parts or moulded parts. Tape or heat sealed seams? We can handle it. Need rubber zipper tags with your logo embossed? We can make it.

With 600D PVC coated cushion and powder coated light weight steel frame, sturdy rigid construction, end section in easy wipe clean material.

213 x 78 x 28 cm

HK4353

Carp luggage (including rod holdalls) has been our core business for many years. They are one of our strong points. Carp luggage and, less obvious but equally important: bags for our other products, like rod pods, bivvies and even chairs and bedchairs. Needless to say that, over time, we got a wide range of parts. On the following pages you will find our standard range of luggage. With the available parts we can make just about any bag that you want, in any quality and style, at any price level.

Rod holdall and luggage items are available in various color and material option

Bivvy Table Incredibly Stable!

RIG TABLE HK11025

A bivvy table with a drawer to store your rigs and... a socalled Rig steam rack: for holding rigs under tension to steam them straight (without burning your fingers). Very convenient when you're at the bank and a carp managed to ruin your carefully tied and straightened combi rig or stiff rig.

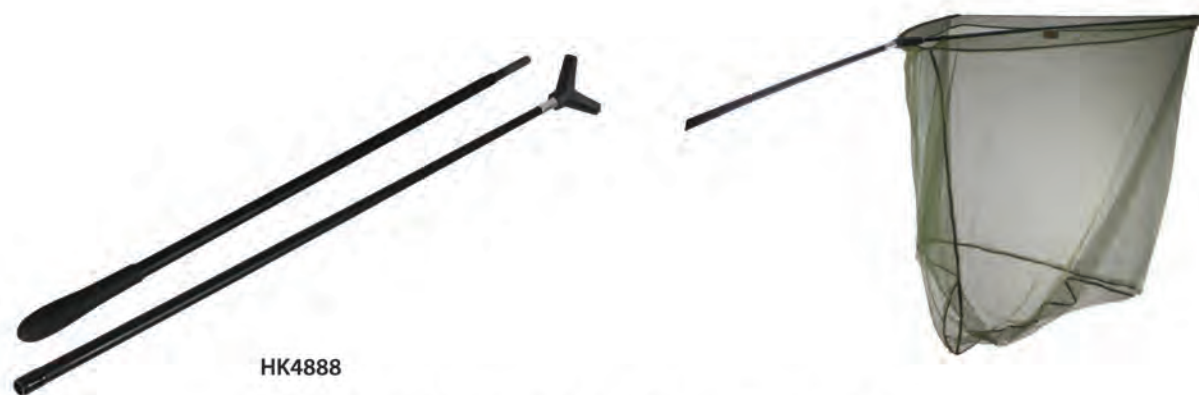

Same material, same (telescopic) legs as our rig table, only somewhat smaller, to make it fit in your tackle bag better.

The table has a ruler, to help you make your rigs on the spot.

The rig steam rack

ECO LANDINGNET

HK4888

2pc fiber handle, 42" green net with fiber arms, with plastic bag.

STANDARD LANDINGNET

CARBON LANDINGNET

HK14311

2pc carbon handle, 42" camou net with carbon arms, with 600din zipped bag

The strength of Holly Creations, as a carp end game manufacturer, does not only lie in its high quality parts and its ability to combine those parts into perfect carp rigs and systems. It also lies in the width of its assortment: hooks, hooklinks, swivels and numerous plastic parts, like lead clips. No need to shop around in China. We have got it all... The only thing missing so far: monofilament main lines and a shock leader. We managed to develop a well thought through and balanced range of monofilament lines that covers all carp anglers needs.

Monofilament main lines & shock leader

Reliable quality

It is common knowledge that many companies and brands still exaggerate the strength of their lines and/or "under-spec" the thickness, to look stronger and thinner than the competition. Others do exactly the opposite and underspec the breaking strain, in an attempt to impress the anglers with the strength. Not us. Our monofilaments are all of the highest thinkable quality. No need to twist the truth...

Distance Casting main line

The low diameter and the extreme softness of this line makes that it simply flies off the spool and through the guides, making it possible to cast extreme distances. Available in three sizes. 1.000 meter on a spool. Comes in a brown and green camouflage colour.

HK-number	Diameter	Test
HK14000-10	0,28 mm	10 Lb
HK14000-12	0,30 mm	12 Lb
HK14000-15	0,35 mm	15 Lb

HK-number	Diameter	Test	Colour
HK14001-10	0,28 mm	10 Lb	Green
HK14001-12	0,30 mm	12 Lb	Green
HK14001-15	0,35 mm	15 Lb	Green
HK14001-18	0,38 mm	18 Lb	Green
HK14002-10	0,28 mm	10 Lb	Brown
HK14002-12	0,30 mm	12 Lb	Brown
HK14002-15	0,35 mm	15 Lb	Brown
HK14002-18	0,38 mm	18 Lb	Brown

Abrasion Resistant main line

This well sinking super tough line received a special treatment to increase its abrasion resistance enormously. Because of that it is slightly less supple than the Distance Casting line, but only slightly. This is the line for fishing in waters full of weed or snags. Available in four sizes. 1.000 meter on a spool. In green or brown colour.

Fluorocarbon main line

Very abrasion resistant and heavy main line. Fast sinking. Fluorocarbon reflects light like water, making it virtually impossible to see underwater. Available in three sizes. 175 meter on a spool.

HK-number	Diameter	Test
HK14003-10	0,28 mm	10 Lb
HK14003-12	0,32 mm	12 Lb
HK14003-15	0,35 mm	15 Lb

HK-number	Diameter	Test
HK14004-35	0,50 mm	35 Lb

Shock Leader line

Extremely abrasion resistant yet still supple enough to tie to a main line. 80 meter on a spool.

All spools have an as big as possible inner diameter and are packed in a printed paper box with euro slot. The fluorocarbon and shock leader lines can also be packed in a plastic ring with euro slot (as shown left).

"Downforce carp skinline, leader lines and hooklink braids are **ultrafast sinking**. They say "cream always floats to the top" but we really made it sink like a brick..."

Downforce skinline, leader lines & braids

Ultrafast sinking

GREAT ANTI TANGLE PROPERTIES

**- EASY TO SPlice
- SUPER BOTTOM HUGGING
- ALTERNATIVE FOR LEADCORE**

ULTRAFAST SINKING

SMOOTH AS SILK

Downforce carp lines are heavier and sink faster than any other kind of carp line. Ideal for outsmarting line shy carp. It's the latest, it's the best...

Downforce Semi-stiff Skinline

Ultrafast sinking skinline with a semi-stiff coating, specially developed for stiff rigs or other rigs that require some stiffness. Easy to strip. Ultrafast sinking. Matte finish. Available in 3 concealing solid colours and two camouflage colours. Any colour available in 15, 25 or 35 Lb. 20 meter on a spool.

Downforce Soft Skinline

Has the same nice characteristics as the Downforce Semi-stiff skinline except it is much softer. Soft skinline are mainly used because of their great anti tangle properties. Available in two camouflage colours and 20 & 30 Lb. 20 meter on a spool.

Downforce Leader Line

Easy to splice. Without any metal core. Very heavy and very soft so: very bottom hugging. Available in two camouflage colours. Diameter: 0,65 mm. Breaking strength: 45 Lb. 10 meter on a spool.

Downforce Super Soft Hooklink

Super soft, thin and ultrafast sinking 8-braid hooklink. Available in the two most popular carp colours. Breaking strength: 25 Lb. 20 meter on a spool.

"Sinking skinline and various types of hooklink braids with different characteristics, for different applications. For every thinkable rig we have the right line."

Various skinline & hooklink braids

Various

On this page you can find a big variety of different kinds of hooklinks, each with different characteristics, for different preferences and applications. For every thinkable rig we have a solution.

Semi-stiff skinline

Directly comparable with the Downforce Semi-stiff Skinline except for the more moderate sink rate. Available in 3 different breaking strength's: 15, 25 and 35 Lb. 20 meter on a spool.

Soft skinline

A soft, slow sinking skinline with a 100% Dyneema® core. Preferred by many because of the great anti tangle properties. Available in three different colours and 3 different breaking strength's: 15, 25 and 35 Lb. 20 meter on a spool.

Fast sink hooklink

Nice and soft, fast sinking hooklink in various colours. Available in 3 different breaking strength's: 15, 25 and 35 Lb. 20 meter on a spool.

Abri hooklink

As the name already suggests: this is a highly abrasion resistant hooklink. Thanks to a special coating this soft hooklink can withstand up to 400% more friction than uncoated braids. Available in three different colours. Breakings strength's: 15, 25 and 35 Lb. 20 meter on a spool.

Super soft hooklink

Super soft and supple, 100% Dyneema® 8-braid. Neutral bouyancy. Available in Moss Green. Breaking strength: 20 Lb.

GREAT ANTI TANGLE PROPERTIES

FAST SINKING

HIGHLY ABRASION RESISTANT

SMOOTH AS SILK

"We offer lead core in a wide range of colours. There are two types: with 12 yarn and 16 yarn braid. Both are equally easy to splice. Very bottom hugging."

Lead core, fluorocarbon hooklink & chod mono

Easy to apply

Spool 3 in Blister X.

12 Yarn lead core

A wide range of 12 yarn leadcore. Ø 0,90 mm, 10 mtr, 45 Lb.

16 Yarn ultrafine lead core

Two colours of 16 yarn, ultrafine leadcore. In the event the lead wire breaks it won't stick out so easily. Ø 0,90 mm, 45 Lb. 10 meter on a spool.

Weedlook lead core

12 yarn, weedlook leadcore. Just as easy to splice as "normal" lead core. 45 Lb. 5 meter on a spool Available in Brown, Green and Camou colour.

Fluorocarbon hooklink

Virtually invisible underwater and fast sinking. It has the right stiffness for stiff rigs. 20 meter on a spool.

Ø 0,35 mm / 15 Lb
Ø 0,40 mm / 20 Lb
Ø 0,45 mm / 25 Lb
Ø 0,50 mm / 30 Lb

Chod mono

This stiff, very low memory hooklink monofilament lets shape itself easily by just pulling it through your thumb and index finger. Also ideal for making stiff rigs, the Withy Pool rig and combi rigs. 20 meter on a spool.

Ø 0,40 mm / 15 Lb
Ø 0,45 mm / 20 Lb
Ø 0,50 mm / 25 Lb
Ø 0,55 mm / 30 Lb

WEEDLOOK LEAD CORE SYSTEMS

Blister P.

MADE WITH 12 YARN
45 LB WEEDLOOK LEAD CORE

The Weedlook leadcore systems are made with our 12 yarn, 45 Lb lead core but have an extra layer of "weed". That layer can easily be pushed back, after which the lead core can easily be spliced. Once that's done the weed can simply be pulled back. It's beautiful! To avoid that air bubbles get trapped in between the weed fibres we recommend to thoroughly wet the Weedlook lead core before casting it out.

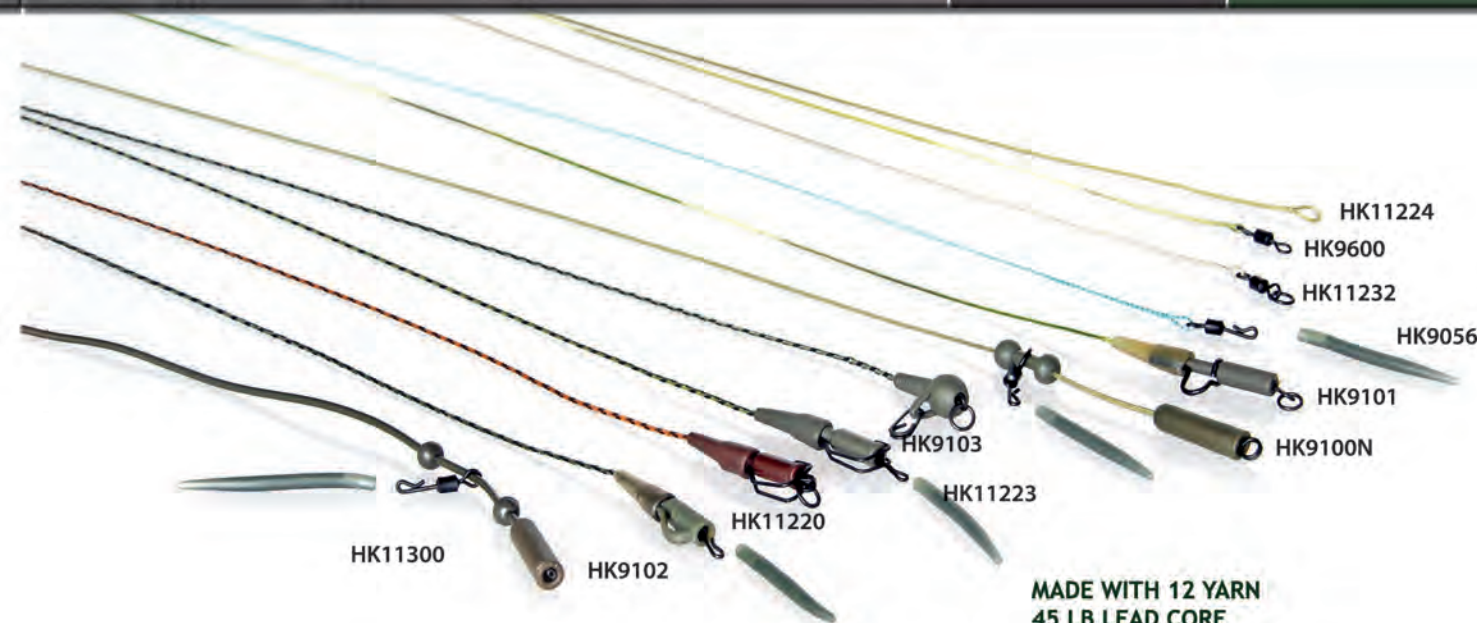

Brown

Green

Camou

AVAILABLE IN 80 AND 100 CM.

One piece construction: no mould split
on rolling surface area.

The used catfish hooks and trebles are PTFE coated. But we can also make the rigs with our black nickel hooks and trebles (except for the two rigs that require a circle hook).

All our catfish rigs
are tied with our 0,80 mm,
225 Lb Catfish kevlar.

1. Catfish live bait/eel rig

With single hook #4/0, #6/0, #8/0 or #10/0 and a Rotating catfish rattler. Length: 100 cm. HK9999

2. Catfish live bait rig with one treble

With one single hook and one treble. Two sizes available: with single hook #6/0 + treble #4/0 or with single hook #8/0 + treble #6/0. Length: 125 cm. HK9998

3. Catfish live bait rig with two trebles

With one single hook and two trebles. Two sizes available: with single hook #6/0 + two trebles #4/0 or with single hook #8/0 + two trebles #6/0. Length: 135 cm. HK9997

4. Catfish live bait rig with three trebles

With three trebles #4/0. Length: 145 cm. HK9996

5. Catfish submerger rig with single hook

With a submerger float. In three sizes: single hook #4/0 + submerger float 30 gram, single hook #6/0 + submerger float 30 gram, single hook #8/0 + submerger float 50 gram. Length: 150 cm. HK9995

6. Catfish submerger rig with circle hook

With a 50 gram submerger float, circle hook #8/0 and two double looped hairs. Length: 150 cm. HK9994

7. Catfish submerger rig with single hook + treble

With a 30 gram submerger float, single hook #6/0 and treble #4/0. Length: 175 cm. HK9993

8. Catfish pellet rig

With single hook #4/0 and two 20 cm double looped hairs. Length: 120 cm. HK9992

9. Catfish adjustable pellet rig

Pellet rig with adjustable hair and single hook #4/0. Length: 120 cm. HK9991

10. Catfish adjustable pellet rig with circle hook

With circle hook #8/0. Length: 120 cm. HK9990

We develop this range for starter of Catfish, all rigs are based on standard settings, i.e, eco braided lines, floats and hooks, and packaging il OPP bag with headercard.

1. Catfish live bait/eel rig

With single hook #4/0, #6/0, #8/0 or #10/0 and a Rotating catfish rattler. Length: 100 cm. HK14083

2. Catfish live bait rig with one treble

With one single hook and one treble. Two sizes available: with single hook #6/0 + treble #4/0 or with single hook #8/0 + treble #6/0. Length: 125 cm. HK14084

3. Catfish live bait rig with two trebles

With one single hook and two trebles. Two sizes available: with single hook #6/0 + two trebles #4/0. Length: 135 cm. HK14085

4. Catfish live bait rig with two trebles

With one single hook and two trebles. Two sizes available: with single hook #6/0 + two trebles #4/0 or with single hook #8/0 + two trebles #6/0. Length: 135 cm. HK14086

5. Catfish live bait rig with three trebles

With three trebles #4/0. Length: 145 cm. HK14087

6. Catfish rig with single hook

With a float. In three sizes: single hook #4/0 + submerger float 30 gram. Length: 150 cm. HK14088

7. Catfish rig with single hook

With a float. In three sizes: single hook #8/0 + submerger float 50 gram. Length: 150 cm. HK14089

8. Catfish rig with sinle hook + treble

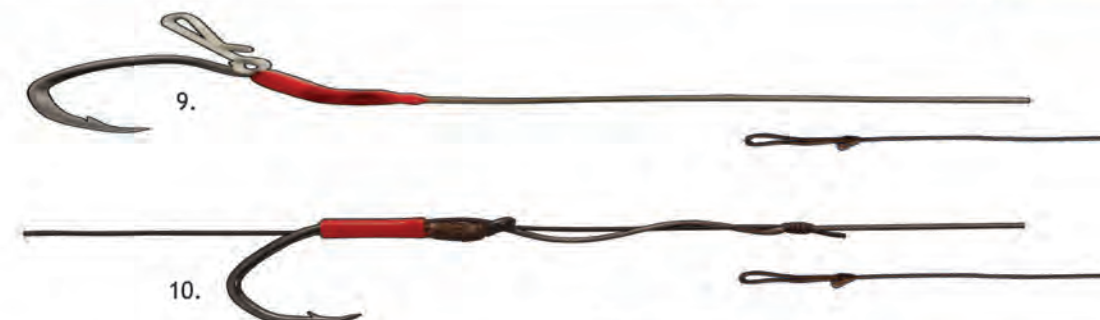

With a 30 gram float, single hook #6/0 and treble #4/0. Length: 175 cm. HK14090

9. Catfish pellet rig

With single hook #4/0 and two 20 cm double looped hairs. Length: 120 cm. HK14091

10. Catfish adjustable pellet rig

Pellet rig with adjustable hair and single hook #4/0. Length: 120 cm. HK14092

Mono Crimp Curve Adapters

HK14521

CATFISH STRETCHER DELUXE

Catfish stretcher to move, weigh or even land catfish up to 100 kg. The quick dry rubber mesh releases scooped up water instantly and helped reduce the overall weight. Eight foam floats (with reflective straps) make the stretcher float and highly visible in the dark. The two 2-piece fiberglass poles will keep the stretcher in shape, which is very fish friendly and safe. The loops of the weigh cord go over the rubber handles.

245 x 75 cm

HK9504

Weigh cord included.

CATFISH WEIGH SLING STANDARD

Net in small mesh, closed by 4 plastic buckles, comes in a dedicated sleeve.

212 x 128 x 70 cm

HK1093

Optional:
reflective tag
on the cord.

QUICK DRY CATFISH WEIGH SLING

Rubber net, supported by two fiberglass poles, comes in a sleeve.

111 x 41 x 42 cm

HK1247

With experience in fishing luggage production for about 20 years, we have a range of high-end match luggage for your selection. Genuine quality fabric in higher than 600D with different color for your choice, heavy duty plastic and metal buckles, strengthened PVC material for protection of luggage bottom, consistent colored and high density straps, professional sewing technics, We can make your Match luggage unique and popular in the market.

At the beginning we made fishing gear, there was already bushes, connectors, disgorgers and catapults in our range. Now we come back to this range of accessories, with new material and process to give big surprise to you.

PTFE BUSH
HK14476

Size: 1.3mm, 1.5mm, 1.6mm,
1.7mm, 2.3mm, 2.7mm,
3.2mm, 3.6mm

PTFE Bush, the material with characteristics erosion-resisting and durable, we supply two models now with different colors.

PTFE BUSH
HK14477

Size: 3.2mm, 4.3mm, 5.2mm

DACRON CONNECTOR
HK14478

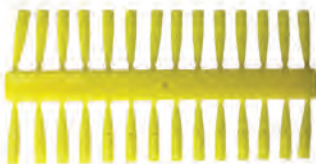

Size: 5mm, 6.5mm, 8mm
2 Connectors per Tube
Dacron Connector, with TPR material mixed in, it's not so hard but still keep a reasonable stiffness, also supplied in different colors.

DISGORGER L
HK14479

Disgorger, nice smooth finishing, with floating function, will be an ideal tool for you.

On these page you will find the most common packagings that we use: blisters, plastic boxes, PVC bags, spools, a headercard, a hang tag for banksticks and our carp rigs OPP bags. Not included are our so-called "dedicated blisters" (which are often heat sealed), because these are only suitable for one specific product. The artwork templates for the labels or insertcards can be found in the "VIP lounge" on our website: www.holly-creations.com. (The VIP lounge section is password protected and only accessible by our costumers).
